

Casalmorano 29/06/2020

Object: **REACH, ROHS and Conflict mineral declarations for Polyamide, Poliurethane and Polyethylene tubs.**

The products made in Castello Italia are produced with raw material, polymers and pigments managed from our supplier according to REACH Regulation n° 1907/2006.

### **SVHC- Substance of very High Concern**

The substances that are listed in the List of SVHC edition 16/01/2020 (available on ECHA web site <http://echa.europa.eu/web/guest/candidate-list-table> - and to annex XIV of the Regulation) are not intentionally added in our products. Therefore, their presence is not expected.

### **ROHS III**

The products comply with Directive 2011/65/EC (RoHS Registration of Hazardous Substances) and Directive 2015/863/EU.

### **CONFLICT MINERALS (Dodd–Frank Act Section 1502 and regulation (EU) 2017/821)**

We confirm that none of the relevant conflict minerals tantalum, tin, tungsten or gold (or their ores) are used in our products.

Castello Italia Spa

Quality manager  
Laura Branzoni

*Disclaimer: This statement is prepared based on current available information from suppliers in terms of additives and raw materials, such as Safety Data Sheets and Specification Data Sheets. Thus, impurities that are not reported on them are not taken into consideration. We inform that Castello Italia does not conduct the specific analysis to confirm the truth of the declaration received by our supplier.*
